

Sky Is NOT The Limit

why accept limits

when they don't exist

who we are

ZEBRA Consultants is an Information Technology company providing **innovative** solutions following a **customer-driven** approach by a team of **passionate** and **experienced** consultants **working together** with organizations to solve their most crucial **challenges**.

- We are information technology consultants
- We serve clients across the financial, government and commercial industries
- We deliver solutions that build value
- We deliver the right technology to meet business objectives
- We are dedicated to our client's success

In order to make the most out of our products and services we partnered up with the industry's most valuable players: Microsoft, Oracle, Red Hat, Cisco and Acronis. These partnerships offer assurance to our customers about the services we offer and the high quality we constantly strive to provide.

how we differ

- Our People: skilled, passionate, committed
- Our Approach: innovative, customer-driven, flexible
- Our Results: quality, efficiency, effectiveness

what we offer

services

- **Consulting Services** – Every minute an employee spends on an activity that does not directly add value to company's operations is a cost that can be saved. Our customers reduce overheads and get access to specialized skills with our Consulting Services.
- **Custom Software Development** – Using latest technology we develop custom applications for customers who are concerned about high standards. We analyze the requirements, develop, and deploy applications tailored to our customer needs.
- **Website Development** – Our trained and innovative personnel are capable of building websites that look and feel the way our customer demand. Imagination and passion lead to creative designs and attractive websites.
- **Systems Integration Services** – A number of technologies exist today and many available solutions use those technologies. We can choose the right solutions for our customers and provide the necessary services in order to implement those solutions efficiently and effectively.
- **Maintenance Support Services** – We offer a variety of service plans that provide onsite, telephone and email support. These plans enable our customers to focus on their day to day business operations leaving any worries to us.
- **Project Management** – A successful project is considered the one delivered on time, in the expected quality and within the specified budget. We at ZEBRA Consultants can ensure the success of the projects we deliver.

products
