Overview

ZEBRA Consultants Ltd is a Business Information Technology company providing IT solutions and services in diverse technologies and markets. In order to make the most out of our solutions and services we partnered up with the industry's most valuable players: Microsoft, Red Hat, Oracle, Cisco, Acronis, VMware, Citrix and Zimbra. These partnerships offer assurance to our customers about the solutions and services we offer and the high quality we constantly strive to provide.

Microsoft

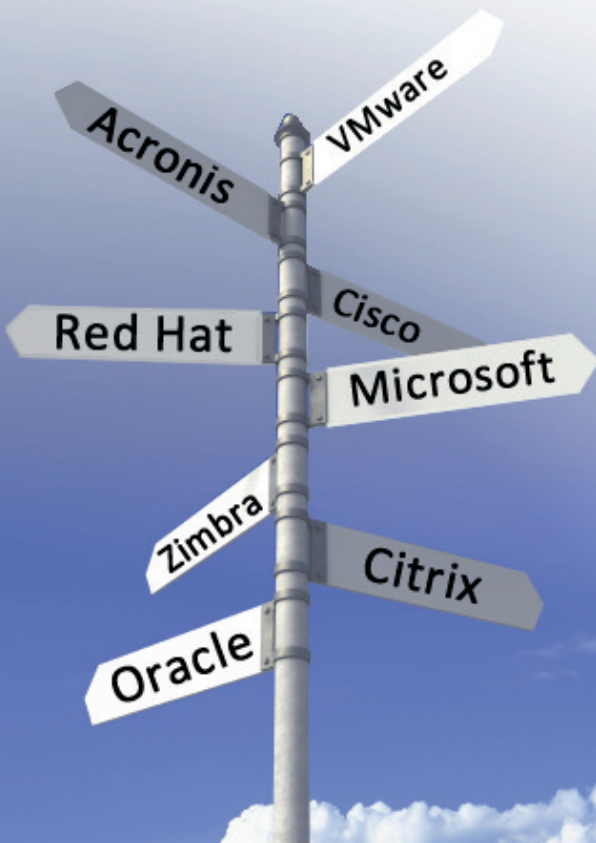

Microsoft solutions range from server infrastructure to enterprise applications and desktop productivity. Our Microsoft certified personnel together with our partnership with Microsoft makes ZEBRA Consultants a key player in the region for implementing Microsoft corporate solutions. Some of the technologies offered for this vendor are: Microsoft Windows Server, Microsoft Active Directory, Microsoft Exchange Server, Microsoft SQL Server, Microsoft SharePoint Server, Office 365 and Windows Azure.

Oracle

We are proud to be an Oracle Silver Partner, committed in delivering its world class solutions at the layers of Database, middleware, Applications and Servers satisfying the most demanding challenges of customers today. Some of the provided technologies are Oracle Databases, Oracle Real Application Clusters, Oracle Application Server and Oracle SOA.

Red Hat

Being the only Red Hat Advanced Business Partner in Cyprus, we enable customers in the region to benefit from the open source solutions offered by Red Hat in both the Infrastructure and Middleware layers. Our comprehensive portfolio includes Red Hat Enterprise Linux, Red Hat Enterprise Virtualization, Red Hat Enterprise High Availability / Load Balancing, Red Hat Enterprise High Performance Clustering, as well as Red Hat Enterprise Linux Desktop.

ZEBRA team is composed by skilled and passionate professionals committed to drive our customers beyond their expectations.

JBoss

JBoss Enterprise Application Platform is the market leading platform for innovative and scalable Java applications. Particularly, we provide solutions such as the JBoss Enterprise Application Platform, JBoss Enterprise Web, JBoss Enterprise Portal Platform and JBoss Enterprise SOA Platform.

Acronis

As a Certified Partner with Acronis, we ensure piece of mind to its customers by adopting Acronis backup & recovery solutions for Windows and Linux environments across physical and virtual platforms. Some of the provided products are the Acronis Backup and Recovery Server for Windows, Acronis Backup and Recovery Server for Linux, Acronis Backup and Recovery Server Virtual Edition, as well as Acronis Backup and Recovery Workstation.

VMware

VMware, the global leader in cloud infrastructure, delivers customer-proven virtualization solutions that significantly reduce IT complexity and help businesses utilizing their hardware resources in the best possible way. Particularly, we offer solutions such as the VMware, VMware Server, VMware ESXi, VMware vCenter and VMware Workstation.

Citrix

Citrix desktop virtualization, application virtualization, server virtualization, application networking, cloud computing and Software as a Service offerings radically simplify computing for millions of users, delivering applications as an on-demand service to any user, in any location on any device. Some of the Citrix solutions we offer include the Citrix XenApp, Citrix XenServer, Citrix, Citrix NetScaler and Citrix Access Gateway.

Cisco

Cisco Systems, Inc. is the worldwide leader in networking for the Internet. Some of the supported services we provide are Cisco Catalyst Switches, Cisco ASA Firewalls, Cisco Routers, Cisco IPS and Cisco Secure Access Control.

Zimbra

The partnership with Zimbra enables us to offer the implementation and support of services for the Zimbra Collaboration Suite and Zimbra Desktop.
